Enclosed for the Bureau are the following items:

1. One (1) [] bill, serial number [] series []
2. Five (5) latent lifts.

For information of the Bureau, on Friday, 6/24/88, at approximately 3:50 p.m., captioned bank was robbed by a lone black male armed with an automatic handgun, possibly a machine pistol. The bank was closed at this time, but a female employee had gone outside to purchase a soda from a nearby store. As the employee returned to the bank and unlocked the outside door, the robber came up from behind and pushed her into the bank at gunpoint. When the employee yelled, the robber stated: "Don't say anything!" The robber then walked behind the glass enclosed teller area through an access door []. The gunman demanded money, and he removed cash from []. After getting the money, the robber exited the bank and made his getaway in a [] New York (NY) license [] which was parked in front of the bank. The vehicle had been reported stolen in [] on [].

For information of the Bureau, captioned bank was robbed on 6/24/88 at approximately 4:00 p.m. by a lone black male with a machine pistol. Details are set forth in referenced airtel. Subject made his getaway in a [redacted] NY license [redacted] This vehicle had been stolen in [redacted] on [redacted]

On 7/13/88 at 3:30 p.m., the vehicle was recovered abandoned in front of 89-47 209th Street, Queens, NY. The vehicle was unlocked, and the ignition had been punched. New York agents processed the vehicle for evidence, and all the above-described enclosures were obtained from the car.

REQUESTS OF LABORATORY DIVISION:

- 1. Examine the hat and bandana (items #2 and #3) for hairs and fibers of evidentiary or lead value.
- 2. Determine, if possible, the brand of cigarette listed as item #4(d) above (CAUTION: THE FILTER PAPER OF THIS CIGARETTE BUTT APPEARS TO CONTAIN A PARTIAL LATENT FINGERPRINT VISIBLE TO THE NAKED EYE; CONDUCT NO EXAMINATION WHICH WOULD PREVENT EXAMINATION OF THIS PRINT BY ID/LFS).

REQUESTS OF ID/LFS:

Examine items #1, #4(a through d), and #5, listed above, for latents of value (AS STATED ABOVE, ITEM #4(d) APPEARS TO CONTAIN A PARTIAL LATENT PRINT).

Upon completion of the requested examinations, the enclosures should be returned to the New York Division.

Result of examination:

A black Negroid head hair was found on the Q2 bandana. This hair is suitable for future comparison purposes and has been mounted on a glass microscope slide. A Negroid hair fragment too limited to be of value for significant comparison purposes was found on the Q1 hat .

Textile fibers were removed from specimens Q1 and Q2 and preserved in pillboxes for possible future comparisons.

You will be advised separately of the results of the fingerprint examination of the ALSO SUBMITTED items and of their disposition. It is noted that the FBI Laboratory does not identify cigarette butts to brand.

Specimens Q1 and Q2 are being returned under separate cover by registered mail.

INSTRUCTIONS

(Detailed instructions are set forth in the NCIC Operating Manual)

Accurately complete form in legible hand printing. A separate form must be completed for each entry. Where theft involves a group of securities which are identical except for non-consecutive serial numbers, complete one form and attach a list of the non-consecutive serial numbers.

Only one numeral, letter or, where appropriate, special symbol may be entered per space. Use appropriate NCIC codes, if known, otherwise fill in blank lines where they appear.

Serially numbered stolen, embezzled, or counterfeit securities meeting the criteria set forth in the NCIC Operating Manual may be entered in NCIC. Items which do not meet criteria for entry in the Securities File are as follows: Personal notes; bank drafts; cashier's checks; bank officer's checks; certified checks; personal checks; company checks; U. S. Treasury checks and other types of government checks (state and local); lost or stolen credit cards; gold or silver coins, ingots, and medals; gift certificates; and savings and checking account passbooks.

1. Check ES block indicating entry is a single stolen security or ESS block indicating entry is a group of consecutively serialized securities.
2. Field Office Identifier (ORI) - Enter field office identifier.
3. Type (TYP) - Enter two letter code which most precisely describes the security, or clearly print a description of the security on line provided, e.g. Federal Reserve Note; U. S. Saving Bond; money order; traveler's check; common, capital or ordinary stock; etc.
4. Serial Number (SER) - Fill in spaces, starting with first space on the left, with the complete serial number including any letters which are part of the number. (Refer to NCIC Operating Manual for assistance in entering U. S. currency where an asterisk (*) is part of the serial number.)
 - (a) When entering a single security, fill in the first serial number block only.
 - (b) When entering a group of consecutively serialized securities, enter the beginning serial number in the first serial number block and ending serial number in the second serial number block.
5. Denomination (DEN) - Fill in spaces starting with first space on the left:
 - (a) Enter in numerical form the amount of money represented by bonds, debentures, currency, traveler's checks, money orders, notes and other securities (excluding those in (b), (c) and (d), below), as indicated thereon, e.g. \$37.00 enter as 37, \$370.00 enter as 370, \$35.25 enter as 35-25, etc. (Note that a dash is used in place of a period (decimal point).) If amount was not indicated on the security, enter the word "BLANK."
 - (b) Enter in numerical form the number of shares represented by stock certificates. (Do not enter par value of the stock.) If number of shares was not indicated on the stock certificate, enter the word "BLANK."
 - (c) With respect to warrants and rights, enter in numerical form the number of new securities which the document entitles the owner to purchase, e.g. 10 enter as 10, 4 3/8 enter as 4 3-8, 4.75 enter as 4-75, etc. (Note that a dash is used in place of a slash (/) or decimal point.)
 - (d) When entering warehouse receipts, which do not represent a value, enter the letters "WR" in the first two spaces.
6. Issuer (ISS) - Clearly print, on lines provided, the complete name of issuing company, agency or organization as set out on the security even though the security may have been stolen, embezzled or missing prior to being "issued" by appropriate authority.

Issuer of U. S. currency and U. S. Treasury obligations (e.g., Treasury Bonds, Bills or Notes; U. S. Savings Bonds, etc.) should be shown as USTREASURY. (Disregard the name of any bank or corporation issuing these type obligations as an agent of the U. S. Government.)
7. Owner (OWN) - Clearly print, on line provided, the full name of owner (person, company, bank, brokerage house, etc.) exactly as it appears on the security except when entering currency. Set out full name of person, company, bank, etc. having possession of traveler's checks or money orders at time of theft, embezzlement or loss.

Enter the word "BEARER" when document is a "bearer" security, e.g. currency.

Enter the word "BLANK" when the security was stolen, embezzled, or lost before the appropriate space provided for name of owner was filled.

Where co-owners are listed, use only the name of first person listed. Disregard name of person (or organization) identified as beneficiary or as the one to whom security is payable on death (P. O. D.).

8. Social Security # (SOC) - Enter the Social Security number of the owner (if a person) without dashes. If Social Security number is unknown or the owner is not a person, leave blank.
9. Security Date (or Series Year) (SDT)
 - (a) Securities other than currency
Enter date security was issued (month, day and year) preceded by the letter "P" or date of maturity (due date) preceded by the letter "M", e.g. P051368 would be entered for issue date May 13, 1968 and M100777 would be entered for maturity date October 7, 1977. Enter the word "BLANK" for money orders stolen before being issued.
 - (b) Currency
Fill in spaces starting from the left with the series year, including any alpha character suffix, e.g. "SERIES 1963A" would be entered as "1963A." (The letter M or P is not to be prefixed to the series year, as is done when entering the maturity or issue date of other securities.)
10. Date of Theft (DOT) - Must be complete month, day and year, expressed in six numerals, e.g. May 7, 1968: 050768.
11. Field Office File # (OCA) - Enter field office file number (include dash), e.g. 52-12345.
12. Miscellaneous (MIS) - Do not use periods for punctuation. Spaces, commas, dashes, etc. may be used.
 - (a) When interest rate is shown on a security, enter this as first item in Miscellaneous block or on lines provided, e.g. 4% enter as 4 INT, 4 1/2% enter as 4 1-2 INT, \$4.75 enter as 4-75 INT.
 - (b) The word "COUNTERFEIT" must be entered as first item in Miscellaneous block when placing a counterfeit security in file. If a face plate (FP) # and/or back plate (BP) # appears on counterfeit currency, this data should be entered following the word "COUNTERFEIT," e.g. COUNTERFEIT FP-A123, BP-369.

Following entry of data called for in 12a and 12b above (if applicable), clearly print in Miscellaneous block or on lines provided any additional descriptive information appearing on the security.

NCIC # (NIC) - Leave blank. Will be recorded by terminal operator.

At approximately 10:50 am, two Black males entered the bank and sat in chairs in the platform area. Two other customers entered the bank after the two Black males had entered the bank and sat in the same area. [redacted] said "next" and one of the Black males told one of the last customers to come, to go ahead of him.

b6
b7C

When [redacted] finished with that customer, he called "next" and one of the Black males came over and said that he would like to open up an account. [redacted] told him to have a seat. The man pulled an Uzi type weapon from beneath his jacket, put a clip in it and laid it on [redacted] desk. The man said "Don't do anything stupid, stand up, open the door, we're going in behind the tellers." The man also said, "Do what I say and no one will get hurt."

[redacted] got up from his desk, opened the door, held it open and then walked in. The Black male stopped the door with his foot, took a shim from his pocket and put it under the door so it would not close. [redacted] walked in back of the tellers with the man behind him. The man told [redacted] to stand where he could see him. He then put the gun on the tellers counter and told the tellers to step back. [redacted]

Instructions

Subject Priorities for FBI Arrest or Locates:

- A - Subject wanted for crimes of violence (i.e. murder, manslaughter, forcible rape, robbery and aggravated assault) or convicted of such crimes in the past five years.
- B - Subjects wanted for crimes involving the loss or destruction of property valued in excess of \$25,000 or convicted of such crimes in the past five years.
- C - All others

Claiming Non-Federal Arrests, Summonses, Recoveries or Convictions:

It is permissible to claim a local arrest, summons, recovery or conviction if the FBI significantly contributed to the accomplishment. A succinct narrative setting forth the basis for the claim must accompany this report. When claiming a local recovery, enter the word "LOCAL" to the right of the amount. Enter "LF" in the "In-Jail" block for all life sentences and "CP" for capital punishment sentences.

Reporting Convictions:

Convictions should not be reported until the sentence has been issued. There are two exceptions to this rule. The conviction information can be submitted by itself if:

- 1. The subject becomes a fugitive after conviction but prior to sentencing.
- 2. The subject dies after conviction but prior to sentencing.

An explanation is required in the Remarks section for either of the above exceptions.

Rule 20 Situations:

The field office that obtained the process (normally the office of origin) is the office that should claim the conviction, not the office where the subject enters the plea in cases involving Rule 20 of the Federal Rules of Criminal Procedures.

Investigative Assistance or Techniques (IA/Ts) Used:

- Since more than one IA/T could have contributed to the accomplishment, each IA/T used must be rated.
- The IA/T used must be rated each time an accomplishment is claimed. (For example - if informant information was the basis for a complaint, an arrest, a recovery and a conviction and if separate FD-515s are submitted for each of the aforementioned accomplishments, the "Informant Information" block must be rated on each FD-515 even if it was the same information that contributed to all the accomplishments.)

Result of examination

Head hairs and/or head hair fragments which exhibit Caucasian characteristics, some of which are suitable for significant comparison purposes, were removed from specimens Q1, Q2, Q6 through Q10 and Q12. These hairs and hair fragments have been placed into pillboxes or preserved on glass microscope slides or left in the submitted evidence container for possible future comparison purposes.

Should a subject(s) be developed in the future and you desire additional hair examinations, please resubmit the microscope slides mentioned above along with a known head hair sample from the subject(s).

Twenty-five full-length hairs pulled from various regions of the scalp are generally considered adequate to represent an individual's head hair characteristics.

No hairs or no hairs suitable for significant comparison purposes were observed in or on specimens Q3 through Q5 and Q11.

A hair fragment possibly exhibiting Negroid characteristics was found in the debris from specimen Q5, however, this fragment is not suitable for significant comparison purposes.

Numerous miscellaneous textile fibers of various types and colors including orange, gold, yellow, amber, black, red and purple carpetlike fibers detected in or on specimens Q1, Q2 and Q4 through Q12 have been preserved on microscope slides or placed into pillboxes for possible future comparisons.

In the event that a subject(s) is developed in the future and you desire additional fiber examinations, please submit known carpet fiber samples from any dwellings, vehicles, et cetera, utilized by the subject(s).

No textile fibers were located in or on specimen Q3.

You will be advised of the results of the fingerprint examinations and the disposition of the submitted items by a separate report. The pillboxes and microscope slides prepared during the examination will be returned as enclosures to this report.
